## .NET SOFTWARE DEVELOPER

To whom it may concern,

Am happy to make it known to you that am a qualified .net developer. Though a student at the KCA university now heading to the final year have gained almost 3 years experience with c# .net frameworks.

I am a passionate programmer. I enjoy making software. In my studies have learned a good number of .net frameworks including WPF, Asp.net MVC, Blazor servers, Mssql, Asp.net react, and Windows forms.

Apart from programming am a spiritual leader and a minister of the gospel.
